

## CLAIMS

I claim:

- 1        1. A scent-free and camouflaged latex glove comprising:  
2            a single layer of latex forming a cuff portion, a palm  
3            portion, a thumb and four fingers defining each glove;  
4            the glove having an exterior surface comprising a single  
5            base color; and  
6            the glove having randomly sized and shaped patches of  
7            accessory colors other than the base color coated on the  
8            exterior surface and defining a camouflage pattern;  
9            whereby a wearer of the glove is protected from leaving a  
10          scent on objects touched by the glove, from emanating human  
11          scent from a hand inside the glove, and from contacting  
12          dangerous bacteria, viruses and biological hazardous materials  
13          with the gloved hand.
- 1        2. The scent-free and camouflaged latex glove according to  
2          claim 1, wherein the glove is symmetrical and adapted for being  
3          worn on either a right or left hand.
- 1        3. The scent-free and camouflaged latex glove according to  
2          claim 1, wherein the glove has a textured surface.

1       4. The scent-free and camouflaged latex glove according to  
2 claim 1, further comprising indicia imprinted on the exterior  
3 surface.
